

Expand MediaWall

Bring your message to your target audience.

The Expand MediaWall is easy to transport in the padded, nylon bag with wheels.

Easily attach the locking connectors on the Expand MediaWall

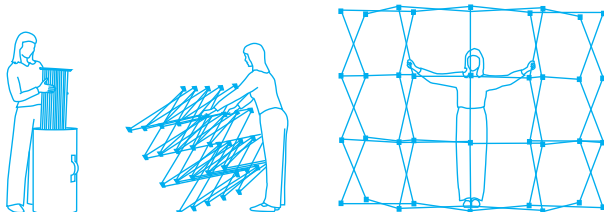

Simply install the durable magnetic bars to the frame.

Expand MediaWall

The Expand MediaWall has a curved shape that is more open than other curved pop-ups on the market. This shape, along with its taller height, allows your graphics to be visible from a wider viewing angle with less distortion.

The construction makes this image wall, one of the lightest on the market and the intelligently designed magnetic bars, make it a snap to attach the image panels. Transport the Expand MediaWall in its own bag with wheels or in our rugged Expand PodiumCase.

Width:
